NOTES
ON THE

Medical Topography of Calcutta,
(Royal 8vo. 190 Pages, with 2 Maps. Price 5 Rs.)
BY JAMES RANALD MARTIN,
Presidency Surgeon and Surgeon to the Native Hospital
PRINTED BY ORDER OF GOVERNMENT.

"Upon the Moral, Physical and Political condition of the Inhabitants of Calcutta, European, Native and Foreign, Mr. MARTIN makes numerous and sensible remarks, which must be very interesting to our oriental countrymen, but which we cannot dwell upon here. The work must have cost the Author immense pains, as it goes most minutely into all the details and ramifications of Medical Topography; and not only so, but into the nature and treatment of the Endemic diseases of the place.

The code of Hygienic Maxims for the guidance of European sojourners concludes the work, which is constructed with great labour, talent and judgement.

It presents an admirable specimen of what a treatise on Medical Topography ought to be."—*From the Medico-Chirurgical Review, No. 57, for July, 1838.*

FORT WILLIAM,
GENERAL DEPARTMENT,

THE 26TH DECEMBER, 1838.

The following Letter from Captain C. R. Drinkwater Bethune, of Her Majesty's Ship *Conway*, to the address of His Excellency Rear Admiral F. L. Maitland, K. C. B., upon the subject of a danger which he has recently discovered in Bass' Straits, and the doubtful position of the South West Cape of Van Dieman's Land as laid down in the Charts, is published for general information :

His Excellency Rear Admiral

Sir F. L. Maitland, K. C. B.,

&c &c. &c.

Sir,—I have the honor to report to your Excellency, that passing between King's Island and Reid's Rocks in Bass's Straits, I perceived a danger, the position of which is different from that described as Bell's Rock in the Australian Directory, vol. 1, page 112.

The following observations were made—21st April, 1838, wind strong from N. W. heavy swell; ran between King's Island and Reid's Rocks, steering S. W. by S. (S. 43° W) passed the Centre Rock at a distance of 3 or 4 miles, they appeared correctly placed with reference to King's Island.

Black Pyramid in one Centre Rock (S. 80° E.)

At 3^h 4^m Centre Rock of Reid's E. by S. $\frac{1}{2}$ S. (S. 61° E.) 4 miles by estimation.

Steered South (S. 9° W) in 5 minutes perceived from the Masthead a heavy Breaker, right ahead, estimated at 6 miles distance, hauled up S. W. (S. 54° W) 2 miles then S. S. W. (S. 31° W.) and South (S. 9° W) the distances on these two last courses not accurately noted, rate from 7 to 8 knots per hour,

(1) 1^h 27^m Breaker and Black Pyramid in one E. 10° S. (S. 71° E.)

(2) 4^h 43^m Pyramid E. 3° S. 1 Breaker and Pyramid (S. 79° E.)

4 ^h 56 ^m	N. 82° E.	62° 8'
(3) 57 ^m	84°	60° 30'
58 ^m	86°	64° 00'
4 ^h 57 ^m	N. 84° E.	63° 30'
	S. 87° E.	

Course Steered S. S. E. (S. 13° E.) for 10 minutes (Time

South (S. 9° W) 30

The bearings from 1, 2, 3, (see Sketch) give the relative positions of the Pyramid and Breaker P and B, and the bearing of the Pyramid from Reid, the bearing and distance of Reid from the Ship, and the bearing of Breaker from Ship (right ahead) give the position of the Ship and Reid S and R.

The result is

From the 5 Reid's Centre Rock bears (N. 52° E.) N N E 10° Breaker (Pyramid ... (S. 73 $\frac{1}{2}$ ° E.) E $\frac{1}{2}$ S. 12°

Now from (2) when anxious to get an angle to Reid's Rock, it was just visible from a point 35 feet above water, and on passing it, we judged it from 20 to 30 feet high, therefore at (2) we were about but less than 12 miles from Reid; the Sketch gives 11° 8'.

Assuming Reid's Rock in 40° 15' 5" S., it places the Pyramid in 40° 27' 8", nearly 5 miles North of its position on the Chart, thus agreeing with a remark made by Captain King, who thought it probable the Pyramid was placed too far South by 4 miles.

The distance from S. to B. agrees with the run of about 8 knots per hour, but cannot be reconciled with the estimated distance when first seen, of 6 miles;—this, however, having been judged from the Masthead, cannot be much relied on.

The position of Bell's Rock being 4 or 5 miles more to the Eastward, I feel inclined to consider this a new danger; at any rate, great caution is necessary in taking the passage between Reid's Rocks and the Pyramid.

The state of the weather precluded more accurate observations. I consider the probable limit of error in the position to be half a point in the bearings, and one mile in the distances.

I have also found reason to doubt the position of the S. W. Cape of Van Dieman's Land, as marked on the Chart: my observations place it about 6 miles more to the northward, this nearly restores it to the original position assigned by Flinders, M. Cecille, Commanding N. M. C. M. Ship *L'Heroine*, informed me that he had found that the latitude 43° 39' 5" was too far south by 3 miles.

The 2nd April, 1838, five observations near noon, which were reduced to noon by the run gave the latitude

43° 15' 2" S. at 2^h 12^m—the S. W. Cape bore E. by N. (N. 88° E.) 4 miles.

Ran in interval S. E. $\frac{1}{2}$ S. (S. 31° E.) ... 16' 8"

S. E. $\frac{1}{2}$ S. (S. 32° E.) ... 4' 8"

Resulting difference Latitude, 17' 8"

Latitude, 43° 15' 2"

Lat. of S. W. Cape, ... 43° 33' 0"

Flinders, 43° 32'

King, 39'

Conway, 33'

I considered the latitude at noon as good as can be obtained from sea horizon—the run may also be trusted, as we were going 10 knots steadily. The course may be subject to error as there was a great swell, but this would not much affect the determination.

I will add, that having run between the Meinstone and Veedle's Rock, a course E. by N. $\frac{1}{2}$ N. brought the South Cape right ahead, this, though not accurately observed with a view to fixing any position, tends to prove that the S. W. Cape and its neighbouring Islands are 4 or 5 miles too far South.

NOTES

ON THE

Medical Topography of Calcutta,
(Royal 8vo. 190 Pages, with 2 Maps. Price 5 Rs.)

BY JAMES RANALD MARTIN,

Presidency Surgeon and Surgeon to the Native Hospital.

PRINTED BY ORDER OF GOVERNMENT.

"Upon the Moral, Physical and Political condition of the Inhabitants of Calcutta, European, Native and Foreign, Mr. MARTIN makes numerous and sensible remarks, which must be very interesting to our oriental countrymen, but which we cannot dwell upon here. The work must have cost the Author immense pains, as it goes most minutely into all the details and ramifications of Medical Topography—and not only so, but into the nature and treatment of the Endemic diseases of the place.

The code of Hygienic Maxims for the guidance of European sojourners concludes the work, which is constructed with great labour, talent and judgement.

It presents an admirable specimen of what a treatise on Medical Topography ought to be."—*From the Medico-Chirurgical Review, No. 57, for July, 1838.*

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Government, or Authorized Agents of the East India Company, an Advance not exceeding three-fifths of such ascertained value will be made;

The rate of Exchange to be determined from time to time at the place where the Advance is made under the Court's orders.

Per Company's Rupee for Advances made at.....	Bengal.
Ditto.....	Madras.
Ditto.....	Bombay.
Per Spanish Dollar Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn

deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England; and in cases where interest shall have accrued, such interest shall be computed at the rate or rates per cent. at which the Company have allowed Discount during the period for which such interest is chargeable.

9th.—Parties or their Agents will be required to Insure the Goods from fire, and deposit the Policies with the East India Company; such Insurance to take effect from the date of the termination of the Sea risk. Should however the Parties or their Agents fail to effect such Insurance, the East India Company shall be at liberty to Insure the Goods, the expense of which shall be reimbursed to them previously to their making over the Goods to those Parties or their Agents.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

Extract of a Dispatch from the Hon'ble the Court of Directors in the Financial Department, dated the 17th August, No. 13 of 1838.

"Upon the Moral, Physical and Political condition of the Inhabitants of Calcutta, European, Native and Foreign, Mr. MARTIN makes numerous and sensible remarks, which must be very interesting to our oriental countrymen, but which we cannot dwell upon here. The work must have cost the Author immense pains, as it goes most minutely into all the details and ramifications of Medical Topography—and not only so, but into the nature and treatment of the Endemic diseases of the place.

The code of Hygienic Maxims for the guidance of European sojourners concludes the work, which is constructed with great labour, talent and judgement.

It presents an admirable specimen of what a treatise on Medical Topography ought to be."—*From the Medico-Chirurgical Review, No. 57, for July, 1838.*

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of the Indian Government, or Authorized Agents of the East India Company, an Advance not exceeding three-fifths of such ascertained value will be made.

The rate of Exchange to be determined from time to time at the place where the Advance is made under the Court's orders.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn

deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company; as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued: the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England; and in cases where interest shall have accrued, such interest shall be computed at the rate or rates per cent, at which the Company have allowed Discount during the period for which such interest is chargeable.

9th.—Parties or their Agents will be required to insure the Goods from fire, and deposit the Policies with the East India Company; such Insurance to take effect from the date of the termination of the Sea risk. Should however the Parties or their Agents fail to effect such Insurance, the East India Company shall be at liberty to insure the Goods, the expense of which shall be reimbursed to them previously to their making over the Goods to those Parties or their Agents.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying, to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

Extract of a Despatch from the Hon'ble the Court of Directors in the Financial Department, dated the 17th August, No. 13 of 1838.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn

The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

BY JAMES RANALD MARTIN,

PRINTED BY ORDER OF GOVERNMENT.

"Upon the Moral, Physical and Political condition of the Inhabitants of Calcutta, European, Native and Foreign, Mr. MARTIN makes numerous and sensible remarks, which must be very interesting to our oriental countrymen, but which we cannot dwell upon here. The work must have cost the Author immense pains, as it goes most minutely into all the details and ramifications of Medical Topography—and not only so, but into the nature and treatment of the Endemic diseases of the place.

The code of Hygienic Maxims for the guidance of European sojourners concludes the work, which is constructed with great labour, talent and judgement.

It presents an admirable specimen of what a treatise on Medical Topography ought to be."—*From the Medico-Chirurgical Review, No. 57, for July, 1838.*
